1. PURPOSE

This procedure describes the activities necessary to control and file cGMP documents used and generated at the InstantGMP™ Manufacturing Site.

2. SCOPE

This procedure applies to electronic and hard copy cGMP documents at the InstantGMP™ Manufacturing Site. It applies to all personnel assigned to work in the InstantGMP™ Manufacturing Site.

Sponsors, vendors and manufacturers are responsible for complying with this SOP when an instance of InstantGMP™ is used for manufacturing, except that Sponsors, vendors or manufacturers may use their document management system if available. Responsibilities will be defined in a Quality Agreement.

TITLE: Document Management System	POLICY NUMBER: SOP-0103.00	EFFECTIVE DATE:	PAGE 2 of 8
--	-----------------------------------	-----------------	-------------

3. RESPONSIBILITIES

- 3.1. The Quality Manager is responsible to assure this procedure is followed, remains consistent with current practices and is reviewed and updated as necessary.

4. REFERENCES

- 4.1. POL-0500 – Document Storage Policy
 4.2. SOP-0104 – Change Control
 4.3. SOP-0221 – Documentation Practices

5. BUSINESS REQUIREMENTS

- 5.1. Official copies of all documents will be electronic copies. Paper copies will be dated at the time of printing and expire one month later.
 5.2. Controlled Documents are defined as those documents that fall under the Change Control system.

6. PROCEDURE

Responsible Party	Action Step
	Controlled Documents and Forms (SOP, MPR, Policies, Clinical Shipping Forms)
User	<p>1. If a hard copy of an executed form or document is required:</p> <ol style="list-style-type: none"> Print from the appropriate Master file. Stamp as "COPY". Initial and date. <p>NOTE: the copy is only good for one month.</p> <p>2. If creating a new controlled document follow the appropriate SOP.</p> <p>3. If revising a controlled document:</p> <ol style="list-style-type: none"> Make a copy from the Working Copy folder and revise according to SOP-0104, <i>Change Control</i> and the appropriate SOP.

--	-----------------------------------	-----------------	-------------

Responsible Party	Action Step
	4. Place the final reviewed version in the electronic Final Revision folder Notify the Document Manager that the document is in the Final Revision folder.
Project Manager	5. When a controlled document has been placed in the Final Revision folder: <ul style="list-style-type: none"> a. Designate as "read only". b. Compare the new electronic version with the previous version (if not new) and ensure that the changes correspond to the appropriate approved change control form. Ensure that any changes are documented in the change history. c. Ensure that new documents correspond to the approved new document form. d. If a form or guide is included in the original document, create an identical interactive form/guide locking the information on the form where it cannot be changed.
	6. When the document has been checked and is ready for signatures <ul style="list-style-type: none"> a. Assign an effective date as indicated by Quality Manager. b. Convert the Word Document to a PDF file. c. Move the PDF file and any interactive form/guides to the Signature folder.
Quality Manager	7. Ensure that the form/guide in the form/guide folder corresponds to the form/guide in the document.
	8. Sign and date the approval page approving both the form/guide and the SOP document.
Project Manager	9. When approval signatures are on the document: <ul style="list-style-type: none"> a. Move any forms/guides to the SOP - Finals Folder within the SOP folder and then file per POL-0500, <i>Document Storage Policy</i>. b. Ensure that only the effective version is available for use. Place the superseded version in the Archive folder.
