## 5. Roles and Responsibilities

The roles and responsibilities for the IQ/OQ protocols are defined below.

Functional Group	Assigned Employee / Company
System Owner	Richard Soltero, Ph.D., InstantGMP
Information Technology	Angelo Nardone, InstantGMP
Quality Unit	Brandy Irons, InstantGMP

### 5.1. System Owner

The ultimate responsibility for the controlled development, implementation, maintenance, and validation of the computer or automated system resides with the identified system owner. Responsibilities include:

- Define the business area needs and the intended use of the system.
- Ensure that system development, implementation, and use conform to the principles of the System Development Life Cycle (SDLC) process and the IQ/OQ.
- Ensure that the use and maintenance of the system complies with documented procedures that maintain the system in a validated state.
- Ensure the accuracy and integrity of the data entered into and resident on the system.

### 5.2. Information Technology

The person performing or overseeing the development and technical aspects of the system is responsible for the following items:

- Create a system technical design that satisfies the specified business area and regulatory requirements.
- Ensure that the technical design, construction, testing and delivery of the system conform to principles of the SDLC process and the IQ/OQ protocols.
- Ensure that maintenance and changes to the system are performed according to documented procedures that maintain the validated status of the system.
- Ensure that the products or services supplied by external vendors and/or suppliers adhere to the principles of the SDLC process.

### 5.3. Quality Assurance

The Quality Assurance Unit is that organization or person designated by InstantGMP to be an independent reviewer for all completed and/or executed validation documentation. The Quality Assurance Unit is responsible for the following items:

	<b>Title: CSVP - System Release / Compliance Report for InstantGMP v4.001.004</b>	Document No: CSVP-SRR-IGMP-4.001.004
		Effective upon last signature date
		Page: 4 of 4

- Maintain independence and objectivity relative to the system development, implementation, use and validation processes.

## 2. Compliance Statement

This InstantGMP system has been validated to comply with the standards outlined in the following references:
